There are four options for Parent/Student Evenings (these options can also be used with student sessions & pricing):

OPTION 1 – LIVE (F2F OR ZOOM) SESSION + ONLINE ACCESS BEFORE

If you cannot secure a date until later in the year, you can give parents access early in Term 1 to the online pre-recorded filmed version of the evening for three weeks, then run your evening later that term or in Term 2 or Term 3. Parents often say they wish they could do the evening more than once and even if they have done the online version a few months ago, it will be a different experience doing it live with their student in a large group.

OPTION 2 – LIVE (F2F OR ZOOM) SESSION + ONLINE ACCESS AFTER

Another option is after your evening give parents access to online pre-recorded filmed version for three weeks after the session so they can revisit sections again. This is also great as they always struggle to take everything in during one evening so they can work through the videos again at home. Plus also good if families were not able to attend or they want their spouse to also see what was covered.

OPTION 3 – LIVE (F2F OR ZOOM) SESSION ONLY

Our ever popular live evening with Dr Prue Salter. There is a reason why she has been fully booked for so many years!

OPTION 4 – ONLINE ACCESS ONLY PRE-RECORDED FILMED VERSION

As it is so difficult to secure a date, you may have been missing out all these years but no more. During 2020 many of the schools who had been doing the face to face version for many years had to (reluctantly) switch to the online pre-recorded filmed version, and the parents just loved it. The flexibility to be able to do the evening during their own time over the month, and to be able to revisit the videos was a big draw card. Plus schools are no longer dependent on when Dr Prue Salter is available. This is also great for regional, rural and overseas schools who also don't have to pay travel costs. Study skills is independent of state, country, school or educational system. Sure there are some things that are specific, but this evening look at things like how to work more effectively at home, how to manage distractions, how to plan workload and manage time and how to organise learning resources, and best practice for studying for tests and exams.

Options for Study Skills Evenings	LIVE (F2F OR ZOOM)	ONLINE ACCESS TO FILMED VERSION	Pricing	Total Cost incl. GST

Note: It is best to start access on a Friday then we will extend the access to the Monday after so families get an additional weekend to access the videos.

*** Dr Salter's Maximising Results Support Group for Year 12 (NSW only)**

This video series consists of three 30-40 minutes study skills sessions (broken into bite-sized chunks) that are released each term so it is ongoing, targeted support for Year 12. The access for this series is ongoing throughout the year, not for just for a few weeks like the other online sessions.

NOTE: You can add your Year 12 students to Dr Salter's support group at any time during the year as they will still get huge value even if they only watched the videos about planning after the Trials/Mocks. Of course it is best if you join up during Term 1 to make the most of the support.

- **Year 12 Video Series Term 1:** Setting up for success this year, what should students be doing?
- **Year 12 Video Series Term 2:** Improving the way students study, planning for the exams next term.
- **Year 12 Video Series Term 3:** What to do before and after the Trials/Mocks, and how to make a study plan for the final exams in Term 4.

FEEDBACK ON THE FIRST DAY OF RELEASE

Student: Thank you very much Dr Salter I appreciate you giving your time to give me feedback on my notes. I watched your videos this morning they're very good. It made the whole situation seem manageable.

Parent: Many, many thanks. Your series is very informative and will really help us.

Teacher: Thank you for your generous and sensible advice to our students and their families. I really must stress that we received a significant number of grateful emails from parents when we sent the initial email informing them of the videos to come. This is such important work that you do - I am extremely grateful too.
